### PROFESSIONAL

I am a web developer with 1.5 years of experience specializing in Python and Django for backend development. I have a proven track record in working with REST APIs, database modeling, and designing scalable web applications. My objective is to contribute to innovative projects by developing robust backend architectures and creating efficient, secure systems.

### TECHNICAL SKILLS

#### Backend Development:

Python (Advanced), Django, Django REST Framework (DRF), FastAPI, Celery, Redis, Channels (WebSockets, real-time apps), GraphQL (Strawberry/Graphene), JWT & OAuth2 authentication

#### Databases:

PostgreSQL, MySQL, SQLite, MongoDB, Redis (caching & pub/sub), Database optimization & query profiling, ORM optimization

#### API Development & Integrations:

RESTful APIs, GraphQL APIs, Third-party API integration (payment gateways, shipping, social auth), Swagger & Postman documentation, Webhooks

#### Frontend-related (for backend integration):

CKEditor, TinyMCE, Rosetta (translation & localization), Django Admin customization, HTML/CSS basics for backend integration

#### Deployment & DevOps:

Docker, Docker Compose, Kubernetes (basics), Gunicorn, Nginx, AWS (EC2, S3, RDS, Lambda), DigitalOcean, Heroku, CI/CD (GitHub Actions, GitLab CI, Jenkins), Environment configuration & secrets management

#### Version Control & Collaboration:

Git, GitHub, GitLab, Bitbucket, Gitflow workflow, Pull Request & Code Review best practices

#### Testing & Debugging:

Pytest, unittest, Factory Boy, Coverage, Postman, Selenium (automation basics), Debug Toolbar, Sentry (error monitoring), Logging best practices

#### Other Skills:

Linux/Unix (advanced terminal usage), Bash scripting, Makefiles, Agile/Scrum methodologies, Jira, Confluence, API performance optimization, System design fundamentals, Scalability & security best practices

#### Soft Skills:

Problem-solving, Analytical thinking, Clear communication, Team collaboration in Agile/Scrum, Time management, Continuous learning

### ADDITIONAL SKILLS

Agile/Scrum team collaboration  
Debugging, performance tuning & refactoring  
API documentation (Swagger, Postman)

### PROFESSIONAL EXPERIENCE

#### Python/Django Backend Developer Nomail LLC | Baku, Azerbaijan | Jan 2024 - Jul 2024

Built and maintained Django backend apps and REST APIs  
Integrated third-party services (payments, logistics)  
Implemented Celery + Redis for background tasks  
Optimized PostgreSQL/MySQL databases and used Docker for deployments

#### Python/Django Backend Developer KhanButa Group | Baku, Azerbaijan | Oct 2024 - Present

Leading backend development of scalable web apps  
Designed secure REST APIs with JWT/OAuth2  
Developed Celery + Redis task scheduling system  
Integrated payment/e-commerce APIs and deployed with Docker, Gunicorn, Nginx, AWS  
Improved system performance, security, and scalability  
Key Projects:  
E-commerce platform, Inventory management system, Task automation system, plus several high-traffic websites.

### EDUCATION

Python/Django Backend Development Bootcamp  
Jed Academy | Baku, Azerbaijan | Mar 2024 - Sep 2024
